COMES NOW John Doe of Box 00, Lander, County of Fremont, State of Wyoming, who being duly sworn on oath according to law does hereby make the following statement of facts and petition:

1. THAT he is the owner of the lands and the appropriations involved as evidenced by the attached proof of ownership from the County Clerk of Fremont County, Wyoming.

2. THAT the appropriations involved are as follows:

a. The Jonathan J. Doe Appropriation, Territorial Appropriation, adjudicated under Proof No. 1491, in the amount of 0.57 c.f.s. for the irrigation of 40.0 acres, diverting from No Name Creek, tributary No Name River, through the No Name Ditch, with priority of May 16, 1885, and of record in Order Record 2, page 446; Certificate Record 2, page 435 describing the lands irrigated as follows:

<u>Township 30 North, Range 100 West</u>		
Section 17:	NW $\frac{1}{4}$ SW $\frac{1}{4}$	25.0 acres
	SW $\frac{1}{4}$ SW $\frac{1}{4}$	<u>15.0</u>
Total		40.0 acres (0.57 c.f.s.)

b. The Jane Alexandra Doe Appropriation, Permit No. 3214 Enl., adjudicated under Proof No. 11411, in the amount of 1.71 c.f.s. for the irrigation of 120.0 acres, diverting from No Name Creek, tributary No Name River, through the No Name Ditch, with priority of October 9, 1922, and of record in Order Record 7, page 123; Certificate Record 32, page 436 describing the lands irrigated as follows:

<u>Township 30 North, Range 100 West</u>		
Section 16:	SW $\frac{1}{4}$ NW $\frac{1}{4}$	10.0 acres
	NW $\frac{1}{4}$ SW $\frac{1}{4}$	10.0
Section 17:	SE $\frac{1}{4}$ NE $\frac{1}{4}$	20.0
	NE $\frac{1}{4}$ SE $\frac{1}{4}$	40.0
	SE $\frac{1}{4}$ SE $\frac{1}{4}$	<u>40.0</u>
Total		120.0 acres (1.71 c.f.s.)

3. THAT your petitioner desires to change the point of diversion of the No Name Ditch, Territorial Appropriation, and Permit No. 3214 Enl., from its point of diversion of record on No Name Creek, described as North 10° 15' West, 320.0 feet distant from the Southeast Corner of Section 13, Township 30 North, Range 100 West, and situated in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 13, to a new point of diversion diverting from the same source of supply approximately 500 feet downstream at a point described as North 20° 10' East, 600.0 feet distant from the Southwest Corner of Section 18, Township 30 North, Range 99 West, and situated in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 18.

The lands for which this change is requested are described as follows:

A. The Jonathan J. Doe Appropriation, Territorial Appropriation, Proof No. 1491:

<u>Township 30 North, Range 100 West</u>		
Section 17:	NW $\frac{1}{4}$ SW $\frac{1}{4}$	25.0 acres
	SW $\frac{1}{4}$ SW $\frac{1}{4}$	<u>15.0</u>
Total		40.0 acres (0.57 c.f.s.)

B. The Jane Alexandra Doe Appropriation, Permit No. 3214 Enl., Proof No. 11411:

<u>Township 30 North, Range 100 West</u>		
Section 16:	SW ¹ / ₄ NW ¹ / ₄	10.0 acres
	NW ¹ / ₄ SW ¹ / ₄	10.0
Section 17:	SE ¹ / ₄ NE ¹ / ₄	20.0
	NE ¹ / ₄ SE ¹ / ₄	40.0
	SE ¹ / ₄ SE ¹ / ₄	<u>40.0</u>
Total		120.0 acres (1.71 c.f.s.)

Total acreage to be changed to the new point of diversion is 160.0 acres (2.28 c.f.s.).

4. THAT this proposed change of point of diversion is necessary because flooding through No Name Creek has washed a deep channel at the site of the present headgate. The new proposed point of diversion will provide a more practical point to install a permanent headgate.

5. THAT there are no record intervening points of diversion (headgates) between the point of diversion of record of the No Name Ditch and the proposed new point of diversion of the No Name Ditch.

6. THAT there are no intervening tributaries or other sources of supply which might affect the rights of other appropriators.

7. THAT a properly prepared map showing the actual situation on the ground accompanies this petition.

8. THAT the granting of this petition will not injure any other appropriators.

It is the prayer of your petitioner that this petition for change of point of diversion, as outlined in paragraph 3 above, be allowed without loss of priority, and that a proper Order of the Board be entered recording same.

Respectfully submitted,

1. THAT he is the owner of the lands and the appropriation for which a change of point of diversion and means of conveyance is sought, as evidenced by the attached proof of ownership from the County Clerk of Fremont County, Wyoming.

2. THAT the appropriation for which a change of point of diversion and means of conveyance is sought is the J. W. Doe Appropriation, Permit No. 3214, adjudicated under Proof No. 3491, in the amount of 0.89 c.f.s. for the irrigation of 62.0 acres, diverting from No Name Creek, tributary No Name River, through the No Name Ditch, with priority of May 16, 1905, and of record in Order Record 2, page 446; Certificate Record 3, page 435 describing the lands irrigated as follows:

Section 30:	NW $\frac{1}{4}$ NW $\frac{1}{4}$	<u>20.0</u>
Total		62.0 acres (0.89 c.f.s.)

4. THAT the reason for the requested change is that a portion of the No Name Ditch is subject to washouts and has been difficult to maintain. A change of point of diversion and means of conveyance to the Unnamed Ditch will eliminate this problem and provide a more economical means of conveyance.

5. THAT consent from Robert Smith, sole owner of the Unnamed Ditch, Permit No. 3400, accompanies this petition.

1. THAT your appellant filed in the Office of the State Engineer on June 1, 1982, an application, which application was given Temporary Filing No. 00 5/150, to construct the No Name Ditch, and that on July 10, 1982, the State Engineer returned said application with the following endorsement thereon:

"This is to certify that I have examined the foregoing application and have rejected same for the reason that it conflicts with existing rights and threatens to become detrimental to the public interest."

2. THAT your appellant feels himself aggrieved by the said endorsement of the State Engineer as follows:

- a. THAT the conflict stated therein may be removed by excluding certain tracts from the application;
- b. THAT the allowance of this application is not detrimental to the public interest.

Your appellant, therefore, requests the State Board of Control to hold a hearing as provided by W.S. 41-4-517, and that a proper Order be entered upon the records of the State Board of Control reversing the action of the State Engineer.

Respectfully submitted,

John Doe

PETITION FOR CHANGE OF)
 LOCATION OF THE NO NAME WELL,)
 PERMIT NO. U.W. 3214, WITH)
 PRIORITY OF APRIL 3, 1959.)

BEFORE THE
 STATE BOARD OF CONTROL
 CHEYENNE, WYOMING

O.R. 16, P. 261; C.R.U.W. 1, P. 38; PROOF NO. U.W. 121

STATE OF WYOMING)
) SS
 COUNTY OF ALBANY)

COMES NOW John Doe of Rex Route, Box 20, Laramie, County of Albany, State of Wyoming, who being duly sworn on oath according to law, does hereby make the following statement of facts and petition:

1. THAT he is the owner of the lands irrigated under the well and the appropriation of water to be changed as evidenced by the attached proof of ownership from the County Clerk of Albany County, Wyoming.

2. THAT the well to be relocated is the No Name Well, Permit No. U.W. 3214, the J. W. Doe Appropriation, adjudicated under Proof No. U.W. 121, in the amount of 500.0 gallons per minute for the irrigation of 105.0 acres, with priority of April 3, 1959, and of record in Order Record 18, page 291; Certificate Record U.W. 1, page 38 describing the lands irrigated as follows:

<u>Township 13 North, Range 75 West</u>		
Section 14:	SW ¹ / ₄ SE ¹ / ₄	10.0 acres
	SE ¹ / ₄ SE ¹ / ₄	25.0
Section 23:	NE ¹ / ₄ NE ¹ / ₄	40.0
	NW ¹ / ₄ NE ¹ / ₄	30.0
Total		<u>105.0 acres</u>

3. THAT your petitioner desires to change the location of the No Name Well, Permit No. U.W. 3214, from its present location described as South 15° 45' West, 125.0 feet distant from the Northeast Corner of Section 23, Township 13 North, Range 75 West, and situated in the NE¹/₄NE¹/₄ of Section 23, to a new location described as North 45° 15' West, 48.0 feet distant from the Southeast Corner of Section 14, Township 13 North, Range 75 West, and situated in the SE¹/₄SE¹/₄ of Section 14.

4. THAT the lands now irrigated (105.0 acres) and the amount of the appropriation (500.0 g.p.m.) will not be affected by the granting of this petition.

5. THAT the reason for the requested change is that the casing of the present well has deteriorated and a partial cave in has occurred, which drastically reduced the amount of water available. It was determined that it was more economical to relocate the No Name Well than to repair the No Name Well.

6. THAT the proposed new location is within the same ground water basin (aquifer) and as nearly as can be determined, will pump water from the same aquifer.

7. THAT no map is required with this petition but a Letter Certificate of Survey from a licensed Wyoming surveyor describing the new location by tie by distance and direction accompanies this petition.

8. THAT no fees are required for this petition.

9. THAT power records for at least the last five (5) years past which indicates that the well has been beneficially used accompanies the petition.

10. THAT the original No Name Well will be abandoned and sealed in accordance with the State Engineer's Rules and Regulations for wells. A Statement of Completion (Form U.W. 6) will be submitted within 30 days after completion of the new well.

11. THAT the granting of this petition will not injure any other appropriators.

It is the prayer of your petitioner that this petition for change of location of the No Name Well as outlined in paragraph 3 above be granted, and that a proper Order of the State Board of Control be entered recording same.

Respectfully submitted,

John Doe

O.R. 2, P. 446; C.R. 3, P. 435; PROOF NO. 3491

STATE OF WYOMING)
) SS
COUNTY OF FREMONT)

COMES NOW John Doe of Box 00, Split Rock, County of Fremont, State of Wyoming, who being duly sworn on oath according to law does hereby make the following statement of facts and petition:

1. THAT he is the owner of the lands and the appropriation for which a recordation of a change of point of diversion and means of conveyance prior to 1965 is sought, as evidenced by the attached proof of ownership from the County Clerk of Fremont County, Wyoming.

2. THAT the appropriation for which a recordation of a change of point of diversion and means of conveyance prior to 1965 is sought is the J. W. Doe Appropriation, Permit No. 3214, adjudicated under Proof No. 3491, in the amount of 0.89 c.f.s. for the irrigation of 62.0 acres, diverting from No Name Creek, tributary No Name River, through the No Name Ditch (as of record), with priority of May 16, 1905, and of record in Order Record 2, page 446; Certificate Record 3, page 435 describing the lands irrigated as follows:

<u>Township 30 North, Range 98 West</u>		
Section 19:	SW ¹ / ₄ SW ¹ / ₄	32.0 acres
	SE ¹ / ₄ SW ¹ / ₄	10.0
Section 30:	NW ¹ / ₄ NW ¹ / ₄	<u>20.0</u>
Total		62.0 acres (0.89 c.f.s.)

3. THAT your petitioner requests a recordation of a change of point of diversion and means of conveyance prior to 1965 of the J. W. Doe Appropriation, Permit No. 3214, which diverts from No Name Creek through the No Name Ditch (as of record), at a point described as North 12° 30' East, 1620.0 feet distant from the Southwest Corner of Section 28, Township 30 North, Range 99 West, and situated in the SE¹/₄SW¹/₄ of Section 28, to the Unnamed Ditch, diverting from the same source of supply, under Permit No. 3400, approximately ½ mile downstream at a point described as North 15° 20' East, 1056.0 feet distant from the Southwest Corner of Section 28, Township 30 North, Range 99 West, and situated in the SW¹/₄SW¹/₄ of Section 28.

The lands for which this recordation is requested are described as follows:

<u>Township 30 North, Range 98 West</u>		
Section 19:	SW ¹ / ₄ SW ¹ / ₄	32.0 acres
	SE ¹ / ₄ SW ¹ / ₄	10.0
Section 30:	NW ¹ / ₄ NW ¹ / ₄	<u>20.0</u>
Total		62.0 acres (0.89 c.f.s.)

4. THAT the reason for the requested recordation is that a portion of the No Name Ditch was subject to washouts and had been difficult to maintain. The change of point of diversion and means of conveyance to the Unnamed Ditch has eliminated this problem and provide a more economical means of conveyance. The petitioner has evidence that this change occurred in 1952 or 1953, and proof that this change occurred at that time accompanies the petition.

5. THAT a map does not accompany this petition, since the new point of diversion has a current and accurate legal survey tie, to a known corner of the public land survey, on file in the State Engineer's Office and/or the State Board of Control, and because the entire appropriation(s) or all permitted acreage within the involved quarter-quarters under this facility has been included in this request.

6. THAT the appropriation involved has been diverted at least once in the last five years when water was available through the new point of diversion and means of conveyance.

7. THAT the granting of this petition has not injured any other appropriators.

It is the prayer of your petitioner that this petition for recordation of a change of point of diversion and means of conveyance prior to 1965, as outlined in paragraph 3 above, be allowed without loss of priority, and that a proper Order of the Board be entered recording same.

Respectfully submitted,

John Doe
