

Surface Water Applications

Wyoming State Engineer's Office

DRAFT

Submitting a Stock or Domestic Diversion under Special
Application Rules (Hardcopy)

- 4) Write the name of the stream from which the diversion is being made. Leave blank if unknown (Figure 2).
- 5) Leave the spaces referring to the corner tie blank, as this information is not required (Figure 2). Specify the legal description and geographic coordinates of the point of diversion (POD) in the spaces following the corner tie information. The legal description may be found on your property deed.
- 6) Specify the legal description and owner of any state or federally-owned lands that are involved in the application (Figure 2).
- 7) Enter 0.056 cubic feet per second, as this is the maximum diversion allowed for a stock or domestic special application.
- 8) Submit the map as described in the following section.
- 9) If works are to be constructed, specify the time required (months) to complete construction and the time to begin applying water to the beneficial use (Figure 3). Write “Existing” if the works are completed.

4. The source of the proposed appropriation is <u>Crow Creek</u>	
5. The point of diversion of the proposed works is located _____ feet distant from the _____ corner of Section _____ T. _____ N., R. _____ W., and is in the _____ NWNE of Section _____ 8 T. 44 N., R. 97 W.	
Lot _____ Block _____ Subdivision Name _____	
Latitude _____ 44.562981	Longitude _____ -109.564871
6. Are any of the lands crossed by the proposed facility owned by the State or Federal government? If so, describe lands and indicate whether State or Federally owned.	
State: NWNE Sec. 8, T.44N, R.97W	
Federal (BLM): SENE Sec. 8, T.44N, R.97W	

Figure 2. Application Items 4-6

7. The carrying capacity of the ditch, canal, pipeline or other facility at the point of diversion is <u>0.056</u> cubic feet per second (c.f.s.)
8. The accompanying map is prepared in accordance with the State Engineer’s Rules and Regulations for filing applications and is hereby declared a part of this application. The State Engineer may require the filing of detailed construction plans.
9. The estimated time required for the completion of construction is <u>6 months</u> , and to complete the application of water to the beneficial uses stated in this application is <u>6 months</u> .

Figure 3. Application Items 7-9

- 10) Show the lands where water will be used for each subdivision by marking an “X” under the appropriate quarter-quarter or writing the lot or tract. Also, specify the land owner and type of use (Figure A- 1).
- 11) Remarks: include any necessary information not provided in the previous portions of the application.

Once all necessary information is entered, please print, sign and date the application (Figure A- 1). A fee must be submitted with the application to be accepted. A comprehensive fee schedule can be viewed on the Wyoming State Engineer Office website.

2. Special Application Map

A special application map is required in addition to the S.W.1 form (Figure A- 2). A special application map must be submitted on an aerial image or a portion of a USGS quadrangle map using the following guidelines:

- 1) USGS quad maps must have a vertical dimension of 11” and horizontal dimension of 8.5” to 17”. 9” x 9” aerial images are acceptable if scale and map details are shown in conspicuous lettering.
- 2) Show the scale. Aerial images must be a minimum of 2” = 1 mile (4” = 1 mile preferred). The preferred USGS quad map scale is 1” = 2000’ (1:24,000).
- 3) Provide a north arrow oriented toward the top of the map.
- 4) Using the most current BLM survey boundaries, show and label the quarter-quarter, section, township, and range that the point of diversion (POD) and point(s) of use (POU) are located within. Show the entire section in which POD and POU are located.
- 5) Show lots, tracts, and homestead entry survey boundaries (if applicable).
- 6) Show the location and name of the stream source. Include any manmade conveyance facilities (e.g. ditch or pipeline).
- 7) Include a title block with the facility name, applicant name, and applicant address in the lower right corner.
- 8) Provide a 4” x 1” signature block with a space for approval date, line for the state engineer’s signature, and the state engineer’s name labeled under the signature line.

***If the above information cannot be provided, submit an aerial photograph with arrows pointing to the location of the point of diversion and place(s) of use. The SEO will create a map on the applicant’s behalf. Please ensure applicant contact information is correctly entered in case questions arise.**
