

State Engineer's Office

HERSCHLER BUILDING, 1-W CHEYENNE, WYOMING 82002
(307) 777-6150

MATTHEW H. MEAD
GOVERNOR

PATRICK TYRRELL
STATE ENGINEER

IMPORTANT NOTICE - PLEASE READ CAREFULLY

YOU ARE RESPONSIBLE FOR ANY AND ALL CLEARANCES NEEDED FROM OTHER FEDERAL/STATE/LOCAL AGENCIES

The approval by the State Engineer of a permit grants an appropriation of water only, and does not grant any authority or permission to use the property of someone else.

If you do not own the land upon which your facility will be constructed, you should, before starting construction, take immediate steps to secure a permanent right-of-way.

If any part of the facility is located on State Land, and you are the lessee of record, communicate with the State Land Board for necessary applications for construction of improvements. If you are not the lessee of record, Land Board approval is needed for right-of-way, permits, or leases across or upon the leased area.

If the facility is to be located on Federal Lands, it will be necessary that you contact the appropriate agency, at one of the following locations, to determine the permitting/right-of-way acquisition procedures for the use of the proposed facility:

Entity	Contact Information
USDA Forest Service-Bighorn National Forest	2013 Eastside 2nd Street Sheridan, WY 82801 Phone: 307-674-2600
USDA Forest Service-Bridger-Teton National Forest	P.O. Box 1888 Jackson, WY 83001 Phone: 307-739-5500
USDA Forest Service -Medicine Bow-Routt National Forests, Thunder Basin National Grassland	2468 Jackson Street Laramie, WY 82070 Phone: 307-745-2300
USDA Forest Service- Shoshone National Forest	808 Meadow Lane Avenue Cody, WY 82414 Phone: 307-527-6241
Bureau of Land Management (BLM) – Wyoming State Office	P.O. Box 1828 Cheyenne, WY 82003 Phone: 307-775-6256
USDI-Bureau of Reclamation – Wyoming Area Office	P.O. Box 1630 Mills, WY 82644 Phone: 307-261-5671
USDI-Bureau of Reclamation – Provo Area Office	302 East 1860 South Provo, Utah 84606-7317 Phone: 801-379-1000
USDI-Bureau of Reclamation – Upper Snake Field Office	1405 Hollipark Drive Idaho Falls, ID 83401 Phone: 208-524-7500

Following the correct permitting/right-of-way acquisition procedures will save you a great deal of unnecessary expense in the future, as any person subsequently filing on Federal Lands or purchasing State Lands, may claim damages, unless such right-of-way is made a matter of record and patent given subject to a right-of-way for existing facilities.

If privately owned lands are involved with this facility, right-of-way should be secured by written agreement from the land owner, securing sufficient land to properly allow any work that may be

Surface Water
(307) 777-6475

Ground Water
(307) 777-6163

Board of Control
(307) 777-6178

necessary. This written agreement should be made a matter of record in the Office of the County Clerk of the County in which the land is situated and the State Engineer's Office.

Construction of this facility may require the discharge of dredged or fill material into Wyoming water bodies and wetlands, including intermittent streams, as authorized by Section 404 of the Clean Water Act (33 U.S.C. 1344). The permittee is advised to contact the Corps of Engineers' office to determine if their proposed work requires authorization from that agency. Corps office is located as follows:

Cheyenne Regulatory Office
2232 Dell Range, Suite 210
Cheyenne, WY 82009
(307) 772-2300

If the water right is for a source to be developed for human consumption serving 15 or more service connections, or 25 or more persons for 60 days or more of the year, then regulations developed under the Federal Safe Drinking Water Act and the provisions of Chapter III of the Wyoming Water Quality Rules and Regulations apply. You are advised that plans and specifications covering the proposed construction, installation, or modification of any system designed for this purpose are required to be submitted to and a permit to construct obtained prior to the start of construction.

Specific requirements of the Federal Safe Drinking Act are available from:

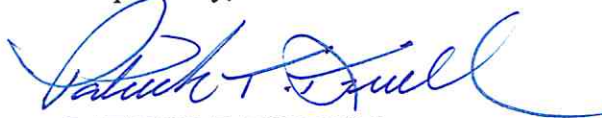

Water Supply Section
US EPA, Region 8
1595 Wynkoop Street, 80C-EISC
Denver, CO 80202-1129
(800) 227-8917

Specific requirements of the Wyoming Water Quality Rules and Regulations are available from:

Water Quality Division
Wyoming Department of Environmental Quality
200 W 17th St, 4th Floor
Cheyenne, WY 82002
(307) 777-7781

Additionally, if the water right facilities are to be constructed in areas subject to local zoning regulations, the proper zoning authorities should be contacted to avoid violation of established zoning laws.

Respectfully,

PATRICK T. TYRRELL
State Engineer
